FACULTY FAREWELLS

"There's a time in every man's (woman's) education when he arrives at the conviction that envy is ignorance; that imitation is suicide . . . Trust thyself . . ." R.W. Emerson
Congratulations and best wishes. -Kathleen Doyle

Work hard, believe in yourself, and reach for the stars! -Ms. Jacoby

Good luck to each one of you. -Helen G. Budd

Best of luck to all seniors! Strive for the best! -Jim and Kara Falcone

To my pals - Mark, Jamie, Amanda, Vanessa, Jimmy, Tim H., Edson, Jill, Tim S., Manoli, Mike, and Rian. You guys were the best - believe it and believe in yourself. Love, Ellie

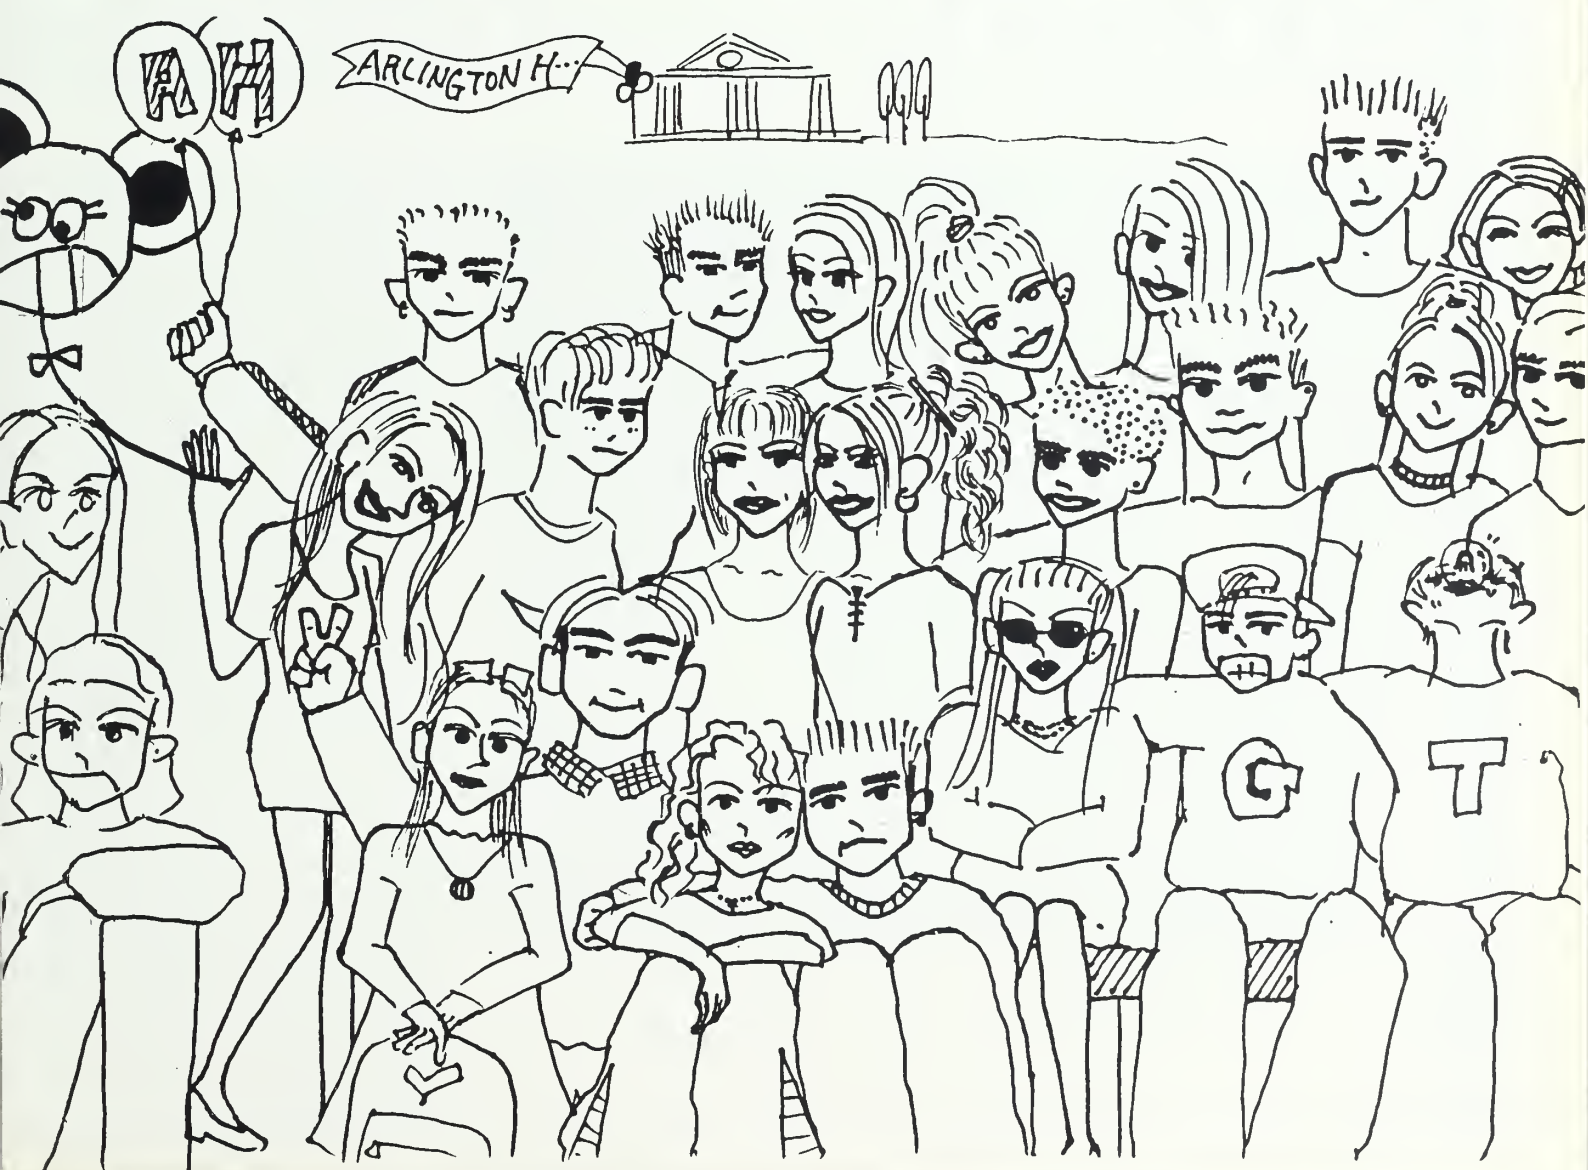

Thanks for sharing so many good times. -Lavinia & John C.

Dear, dear students, Continue to do well - to learn - to be lifelong readers and writers. -Miz Rad.

I remember my high school days so well and with so much affection. You and I have walked the same corridors in high school - and soon you will join me with the title of AHS ALUMNUS! It has been a privilege to share "my" high school with you. As you leave, never stop smiling because it is wonderful medicine, never stop trying, because you are never a failure unless you stop trying, and always be good to yourselves and to others. Life can be challenging, but, hopefully in your 12 years of education and 4 years with us, you will take with you what you need to be all that you can. God Bless You! -Mrs. Ortwein

I wish for you so many things- Peace, health, love- But most of all A heart that sings.
Love, Fin

The Arlington High School Drama Club has been an ongoing extra curricular student activity dating back to the 1920's. Each fall the club stages a non-musical dramatic or comic presentation usually featuring an ensemble cast. The ensemble concept allows a maximum number of students to apply techniques explored in the drama classes. In the past, Arlington Drama Clubs productions have been state winners in the annual drama festival sponsored by *The Boston Globe*. One state winner, developed by Arlington students, director and faculty author, has been so popular it has been performed by high school students in all 50 states. In the recent past, productions have ranged from the traditional, such as stagings of *Our Town*, to the experimental with an original exploration of the AIDS crisis.

The purpose of the Art Club is to promote visual art in our school and to provide a creative outlet for students' artistic expression. Students are involved in a variety of activities including attending art exhibits, open studios, and fine art performances, painting murals around the school and providing opportunities for students to display their artwork through student art shows, publications and competitions. Students also have the opportunity to work on individual projects according to their particular interests. The club is open to all students with an interest in the visual arts.

The Peer Mediation Program is not a "club" but a service provided during school hours by students for students involved in a dispute. It is coordinated by Mr. Harry Manasewich, a professional mediator. Peer mediation is a voluntary process that allows people to resolve their own disputes, with the help of "peer mediators" by talking confidentially with one another in an informal and safe place. The peer mediation process enables people in disputes to write their own agreement. Professionally trained, impartial AHS students, called peer mediators, help the disputants air their concerns, explore creative approaches to problem solving and reach a mutually acceptable realistic settlement.

The National Honor Society exists to recognize those students who have distinguished themselves during their high school career. In order to qualify for the society, students must have no lower than a 3.4 academic average and also must be recommended by their teachers for their character as well as for their contributions to the school and the society at large. Honor Society members provide free tutoring to any student who wants it as a service to the community.

Charles J. McCarthy, Jr.
Principal

To the Members of the Class of 1998:

It is always a pleasure to add my congratulations to the many such messages that each graduating class receives as they leave AHS. This year is no exception. The honors that this class has received will be well and broadly chronicled by the time this Yearbook is published. Those honors will cover a wide range of endeavors. They will have been achieved in academics, of course; in athletics, in the arts, in competitions with other schools and communities, and in various service activities and projects throughout the Arlington community and the surrounding area.

As a whole, the class has done something else of note. You have gone through the past three years, and more significantly through your senior year, carrying a heavier load of work than any class that has preceded you. Because of the demands of the Educational Reform Law, you, the Class of 1998, have gone to school for longer school days for your last three years, and have spent more time in directed class activities for the last year, and have spent more days in school than any other class before you. Despite this higher level of demand, you persevered and succeeded at the highest levels.

One of the pleasures of working with young people is being able to watch them grow and mature, and to see them achieve at levels they themselves may not have imagined possible. The Class of 1998 has certainly provided me ample opportunity to witness that growth and achievement.

Congratulations on your accomplishments; good luck in your future endeavors; and, thank you for the talents you have shared with us during your time at AHS.

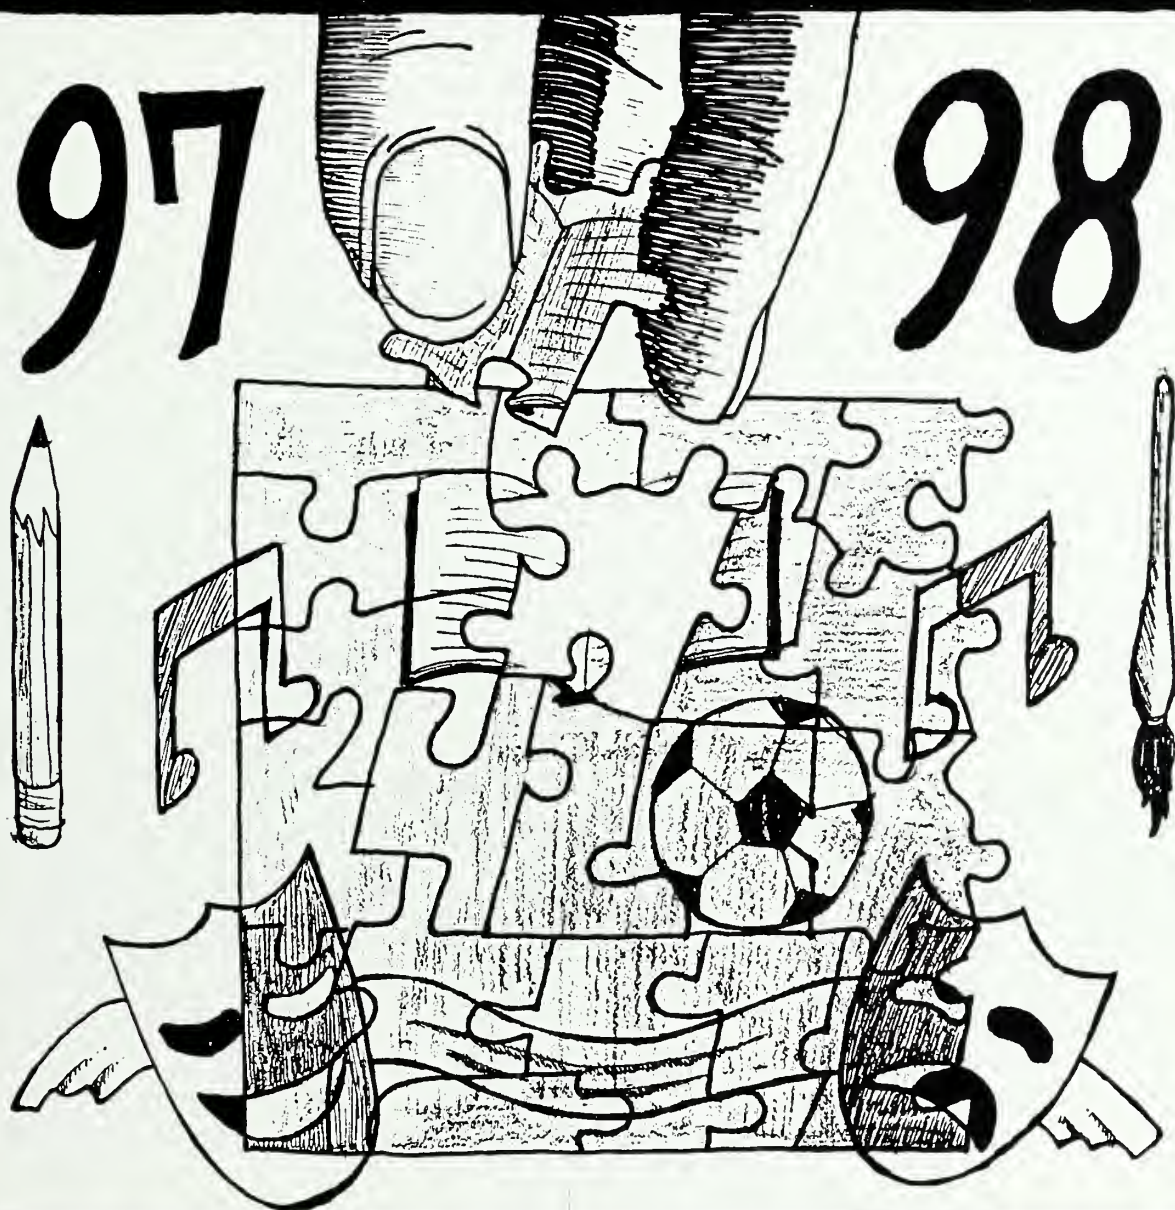

Sincerely,

Charles J. McCarthy, Jr.
Principal

High School is four years Long for most. These years pass by at varying speeds. Freshman year lasted about one day. Junior year took at least two years. When we are fifty, we will recall only snap shots of what our life was like. My only advice to everyone else, and which I live by, is not to worry, but be happy. Oh, and avoid running at all times.

Once there was a girl who lived in a
candy-striped house. All her life, she ate
the sweets that covered the walls, until
one day nothing was left. She picked up
a pen, and she picked up some paper,
and she left the candy-striped house.
Looking back one last time, she blew a
kiss. She watched the walls collapse
around her. And then she grew up.

The true extent of man's domination lies in the recognition of his own limitations. More than tool-makers or space-farers, we are human, fallible and frail. As we move through life, let us not forget our limitations; and in the remembrance, find our grandeur. Plus, play a little Frisbee. Love, Sam

The background of the page is a light-colored collage of various school-related items, including graduation caps (mortarboards), diplomas, and books, scattered across the surface.

MEMORABLE YEARS OF OUR LIVES

"The most memorable years of our lives"
Is what we've been told
Are the four years of high school
Which leave memories for us to hold.

We've laughed, we've cried; we've smiled;
We've had challenges and we've had pleasures . . .
Remember the people we've lost
With the memories we have to treasure.

The friendships that we've made
And the struggles that we've overcome
Will help us all to succeed
In the future yet to come.

As we look into the future
And try to determine everyone's fate,
Let's not forget the memories
From the class of '98!

-Lesley Simmons '98
